A true Northwoods Wisconsin fishing resort, Errington's Resort has a proven record that will insure your vacation success. Since 1952, we have been providing outdoor enthusiasts with opportunities to explore Vilas County Wisconsin in ways other resorts do not offer.

Open year-round, our extensive property fills every vacationers need with offerings of single-room motel units, one-bedroom cabins, two-bedroom cabins, three-bedroom cabins, two-bedroom modern apartments, and an exclusive four-bedroom log home. Whether fishing, recreational boating, hiking, biking, ice fishing, snowmobiling, snow shoeing, cross country skiing, or just spending a relaxing time "north of the tension zone," we've got you covered.

In the summer months our cabin rentals include use of 14-foot fishing boat with the cost of your cabin. We have 8 hp motors available for rent to our guests as well. Unlike other resorts in our area, we have secured boat-mooring permits with the State of Wisconsin on nine different lakes in the area. These lakes include several secluded lakes that would be inaccessible were it not for our boats moored there. We also offer boats on trailers so our guests can go to lakes of their own choosing. In this way, a fisherman is not limited to only one lake during a visit. So if the lake isn't "hitting" during that time our guests have access to other lakes that are more productive.

In the winter months we are open for cold weather enthusiasts including snowmobilers, ice fishermen, cross country skiing, and snow shoeing. With direct access to the most popular snowmobile trials heading north and south, access to all the winter festivals in northern Wisconsin and the UP of Michigan are at your fingertips.

RATE SHEET 2013
